Tomatoes-Cherry	1 pint		x	x	x				
Turnips	1 bunch/bag	x	x			x	x	x	
Winter Squash	1 - 2				x	x	x	x	
This chart represents our expected harvest schedule for each vegetable.									
Each season yields different quantities of each vegetable, but this is our best estimation of what we will harvest and when.									
Quantities are included so you can get an idea of what an 'item' is.									
Quantities/what constitutes an item will vary. For example, if we have lots of cucumbers one week, one item would be four cucumbers.									
An 'x' for a vegetable in any given month means that it is likely to be on the list at some point OR throughout that month.
